

Our Impact on Research

Voices of Hope fundraising efforts benefit the Termeer Center for Targeted Therapies at The Mass General Hospital Cancer Center.

The Termeer Center offers a comprehensive translational research program to speed the discovery and delivery of new targeted therapies to patients with early and advanced stage cancers. Their goal is to cut the average time for drug development from ten years to five; and with more clinical trials, improve access to therapy for patients.

“The efforts we have undertaken in the past several years, accelerated by Voices of Hope’s support, have allowed us to understand why it is that one patient responds to therapy so much better than another,” says Keith Flaherty, MD, Director of Clinical Research, MGH Cancer Center.

Voices of Hope is proud to have been recognized for our dedicated efforts in the fight against cancer:

- MGH “the one hundred” honoree
- Myra Kraft Community MVP Award recipient

Voices of Hope is a 501(c)(3) non-profit organization and all donations are tax deductible to the fullest extent of the law. EIN: 27- 4626672

OUR COMMUNITY OF SUPPORT

All helping to MAKE A DIFFERENCE.

Making Cancer History One Song at a Time

Through musical performance, we celebrate those we love, remember those we have lost, honor those who fight, and rejoice for those who survive.

With music as our voice, we raise awareness and funds to support cancer research and create the hope of finding a cure for generations to come.
